

split chair

The Split chair links our more than 150-year-old technology with contemporary design. It is based on manually bent split lengths of massive wood; which, at the same time, are both a design and functional element of seating furniture - it supports the seat and also the backrest. It is elegantly slid in, behind the seat made also from massive wood. Apart from the upholstery, we also offer a design in ash, which can be applied with gradients by manual spraying.

ISO 9001:2008
ISO 14001:2004

frame wood

- beech
- ash

frame color

- standard (stained)
- antique classic
- pigments (painted)

seat

- veneer
- upholstered

Glides

- plastic
- felt
- metal
